On this page you will find information about our MFL curriculum at Front Street Primary School.

Intent

Children at Front Street Primary School are taught to develop an interest in learning another language in a way that is enjoyable and stimulating. We strive to engage a curiosity about language (French) and an awareness of cultural differences in other countries whilst encouraging confidence, independence and creative skills. The skills of listening, speaking, reading and writing are developed to enable the children to use and apply their French learning in a variety of contexts and lay the foundations for future language learning. French lessons are progressive and ambitious and are focused on, key skills, phonics, grammar and vocabulary. The children are challenged in their learning and are taught to think critically whilst having their curiosity stimulated. Children leave Front Street with a love of French and a belief that they can achieve and succeed in French.

Implementation

Our MFL curriculum is designed to progressively develop children skills in languages, through regular taught lessons in Key Stage 2. Lessons are grouped into topics which focus on basic skills, phonics and grammar in addition to the development of speaking, listening, reading and writing. Children progressively acquire, use and apply a growing bank of vocabulary organised around these topics. Children are encouraged and supported to develop their speaking and listening skills through conversational work, role play, watching French speakers via videos, singing activities and games. We use the Rachel Hawkes scheme to ensure progression and repetition so that skills and knowledge are built on and developed. Reading skills are developed through the use of French fiction and non-fiction books and written extracts related to the specific topics. Children are encouraged to develop their written skills and grammar through a variety of written activities.

Inclusion and Equal Opportunities

The teaching of MFL gives every child a chance to take part and enjoy a new language. All children can and will succeed in French. Where necessary, small tweaks are made to the delivery of lessons to enable the success of all learners. Our curriculum is fully inclusive and supports ranging needs and cultural diversity
